

AQEEL AHMAD

ID: 1210332400755 **Nationality:** Pakistani **Date of birth:** 22/01/2004

Place of birth: Dhakki, Pakistan **Gender:** Male

Phone number: (+92) 03499242768

Email address: imaqeelahmad5@gmail.com

LinkedIn: <http://linkedin.com/in/aqeel-ahmad-a99760316>

Work: Township in Mansehra, 21314 Mansehra (Pakistan)

ABOUT ME

Python Developer with a solid foundation in Computer Science and a strong background in full-stack web development. Currently focusing on **web scrapping and AI automation**. I write scripts to extract and process complex data while building functional, data-driven web applications. Combining a passion for modern technology with hands-on skills in Django, HTML, CSS, and JavaScript, I genuinely enjoy the entire process from designing clean user interfaces to engineering backend architectures.

WORK EXPERIENCE

Developer 360 – Mansehra, Pakistan

Python Developer (Web Scrapping & AI Automation)

[30/06/2026 – Current]

LearnOboats -- IMSG (I-VIII) Bain Nala – Islamabad, Pakistan

Link <https://tinyurl.com/TechFellow-Aqeel>

STEAM Teacher

[15/12/2025 – 01/05/2026]

Iiui School PWD Campus Islamabad – Islamabad, Pakistan

Computer science lecturer

[03/11/2025 – 15/12/2025]

Al-Abbas Science School and Collage New Chura – Dhakki, Pakistan

Computer Teacher

[01/09/2025 – 01/11/2025]

Iqra Science School and Collage Dhakki – Dhakki, Pakistan

Link <https://tinyurl.com/AqeelAhmad>

Math & Computer Teacher

[05/04/2022 – 25/12/2023]

EDUCATION AND TRAINING

BS Computer Science

The University of Agriculture Dera Ismail Khan [28/10/2021 – 05/08/2025]

City: Dera Ismail Khan | Country: Pakistan | Website: <https://www.uad.edu.pk/> | Final grade: CGPA: 3.75/4

FSc | Pre-engineering |

Professor Zubair School & College D.I.Khan [05/09/2019 – 23/09/2021]

City: Dhakki | Country: Pakistan | Final grade: 61.27%

Matriculation

Iqra Science School Paharpur, D.I.Khan [08/04/2017 – 28/06/2021]

City: Paharpur | Country: Pakistan | Final grade: 86.72%

PROJECTS

MindCraft – A Personalized Online Learning Smart Application (Final Year Project) MindCraft is a smart web-based learning system developed as part of my BS Computer Science degree. It uses machine learning to recommend personalized courses based on user performance and behavior. Key features include:

- Dashboards for both students and instructors
- Performance analytics and content upload
- Adaptive learning paths using Python and Scikit-learn
- The platform is built with Django, HTML, CSS, JavaScript, and PostgreSQL.

[25/08/2026 – 25/08/2026]

Automated Web Crawler Service *Technologies: Python, Scrapy, Scrapyd, MongoDB, PyMongo*

- **Architecture & Crawling:** Designed a robust web scraping engine using **Scrapy** to crawl multi-page catalogs, handling pagination, request scheduling, and structured data extraction.
- **Service Deployment:** Configured and deployed the crawler to a local **Scrapyd** server, enabling daemonized execution, remote job scheduling, and centralized log monitoring.
- **Data Pipeline:** Built a custom Scrapy Item Pipeline using **PyMongo** to validate, clean, and directly stream extracted data into **MongoDB**.
- **Reliability & Monitoring:** Managed concurrency settings, error handling, and runtime diagnostics via Scrapyd logs to ensure zero data loss during high-volume ingestion.
